Contents Volume 3 (1985)

Vol. 3, No. 1 (February 1985)

Editorial 1
Towards a microscopic analysis of industrial innovations: from diffusion curves to technological integration through participative management
C. Abraham and G. Hayward (Danbury, U.K.) 3
A proposed mechanism for commercializing university technology
W.S. Brown (Salt Lake City, UT, U.S.A.) 19
Cohabitation: small research-based companies and the universities
M. Bullock (London, U.K.) 27
A report on an Australian experiment at attempting to increase innovation and entrepreneurship within the community: results of efforts over four years
G.E. Wittingslow (Melbourne, Australia) 39
The Japanese way of manufacturing and production management
K. Hitomi (Kyoto, Japan) 49
Counselling to resolve a clash of cognitive styles
P.R. Lindsay (Hounslow, U.K.) 57
Technology transfer through technological attachés: the Belgian experience
W. Van den Panhuyzen (Brussels, Belgium) 69
Book review 73
Call for papers 74

Vol. 3, No. 2 (June 1985)

Development, learning and organizational change
M. Woods (Bradford, U.K.) 75
The perception of teaching methods and the retraining of mature managers
M. Woods (Bradford, U.K.) and S. Carter (Leeds, U.K.) 77
Managing change in pharmaceutical industry R&D
D.E.E. Loveday (Loughborough, U.K.) 89
Designing high commitment—high performance organizations
A.A. Huczynski (Glasgow, U.K.) 111
Making new things happen: an interpretation of observed innovation strategies
T. Rickards (Manchester, U.K.) 119
Democracy and adaptation to economic and technological change: is the British political system capable of adjusting?
W. Wallace (London, U.K.) 133

A description of some factors affecting technological innovation in industry in the United Kingdom and some remedies to improve the climate
K. White Hunt (Leeds, U.K.) and A. Pomykalski (Delft, The Netherlands) 139
Book review 153
Announcements 155

Vol. 3, No. 3 (August 1985)

Editorial 159
Technology, industry, and the question of national policy
H.E. Hoelscher (Houston, TX, U.S.A.) 161
Invention, innovation, re-innovation and the role of the user: a case study of British hovercraft development
R. Rothwell and P. Gardiner (Brighton, U.K.) 167
Repressed inflation and pseudo-innovations
N.W. Balabkins (Bethlehem, PA, U.S.A.) 187
User-oriented product innovation. Some research findings
K. Holt (Trondheim, Norway) 199
Technological limits to forecasts of doom: science, technology, and the sustainable economy
T.R. DeGregori (Houston, TX, U.S.A.) 209
Notes for an address to the Ottawa Association for Applied Economics
S.L. Smith (Ottawa, Canada) 221
Book reviews 227
ISPIM News 231

Vol. 3, No. 4 (October 1985)

Editorial 233
Improving management effectiveness by training — the use of video techniques to assist self appraisal
D. Olshfski and R. Cunningham (Knoxville, TN, U.S.A.) 235
Small high technology firms: some regional implications
J. Senker (Falmer, U.K.) 243
A new approach to the evaluation of process innovations
J.R. Evans and S.J. Mantel, Jr. (Cincinnati, OH, U.S.A.) 263
The challenge of computer-integrated manufacturing
J. Bessant, R. Lamming (Moulsecoomb, U.K.) and P. Senker (Falmer, U.K.) 283
Industrialization bottlenecks and the development of industrial technology
H. Schwartz (Washington, D.C., U.S.A.) 297
Book reviews 315
